Our Solutions Now

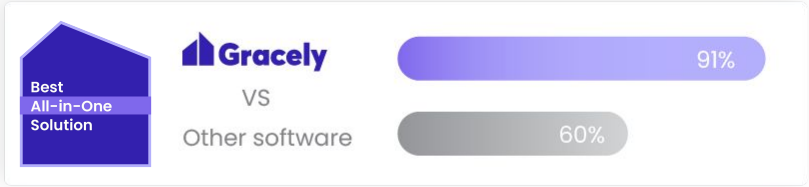
We currently use multiple platforms to handle attendance tracking, giving, communication, volunteer & event management

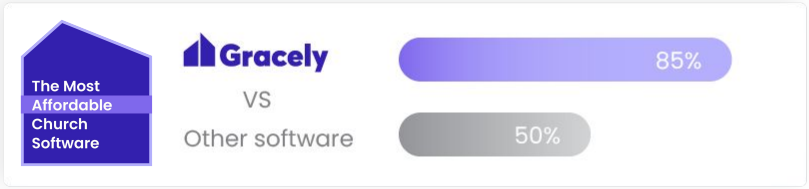
Issues with this setup:

- Expensive
- Hard to manage
- not built specifically for us (or for churches in general)

The value Gracely brings compare to other softwares

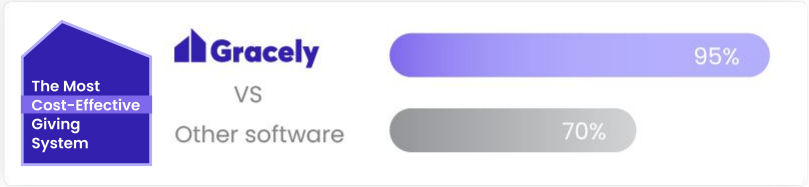
No more juggling platforms. You can manage everything in one place, without third-party app integrations.

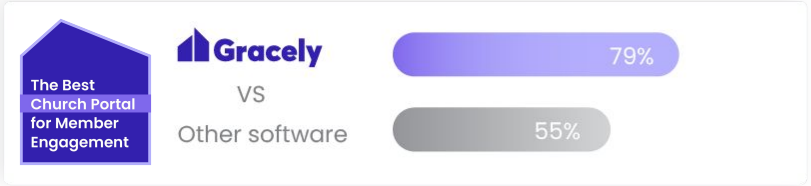




Simple, flat-rate pricing—no surprises.

Many church platforms charge high transaction fees. Gracely provides secure, zero-cost online giving with automated contribution tracking.





Most platforms focus only on admin features—Gracely gives members their own portal to update profiles, register for events, and manage their giving.

The Church App Your Members Deserve

The My Gracely Mobile App helps your **congregation stay connected to your ministry** throughout the week.

From joining events to giving online, it empowers every **church member** to take action and **stay engaged** right from their phone.

Without the app:

- ✗ Members forget events or miss updates
- ✗ Giving drops when people are away
- ✗ Admins waste time chasing info or forms

With the app:

- ✓ Members stay always update & informed
- ✓ Giving increase
- ✓ Admins save time
